Dempsey Guaranteed \$450,000.

Dempsey, who was paid \$750,000 for ten miserable rounds last year when he was the champion, fights tonight for a guaranteed \$450,000.

Tunney was paid \$200,000 last year and even a gate of \$2,500,000 will bring him \$900,000 tonight. Thus the two showings of their ten round spectacle will have netted each fighter more than \$1,000,000.

When the gambling resort at 511
North Clark street closed for the night about 3 o'clock this morning, the managers found they had en hand \$25,000. Having in mind the holdup of the place last Sunday morning in which robbers got \$15,000, the proprietors decided to place the \$25,000 in the Masonic Temple vaults.

Edward "Pigsy" Joyce, brother of State Senator John T. Joyce, with two others in an automobile, started with the money for the vaults. At Clark street and Wacker drive they ran into Sergt. Tom Cooper, and his detective bureau squad and were stopped. The police said Joyce was carrying a revolver and arrested him and his companions, George Harrison, Sheridan Plaza hotel, and George Martin, who said he lives at the Morrison. They were permitted to place the money in the vault, then were taken to the detective bureau. A few minutes later Senator Joyce apeared and balled them.

The Development of an Idea

Its Expansion and Its Limitations

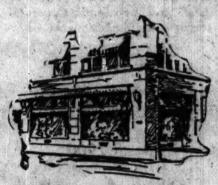

Twenty-five years ago a small shop on Washington Street served to present to the Women of Chicago the ideas and ideals of Frederick E. Foster in the Correct Fitting and Selling of the higher types of Shoes for Women and Children.

Today Five Foster Shops, in addition to the Headquarters Store on Wabash Avenue, make possible a "COMMUNITY SERVICE" with all the resources of a great organization. Experienced Toster salesmen also visit the larger cities at frequent intervals so that the Women of the Central West have learned to appreciate the careful and painstaking service in the Designing, Producing and Fitting of Toster Shoes which has ALWAYS been the fundamental policy of the business.

The expansion of the Foster Business is due to a growing appreciation of Better Shoes, Hosiery and Access-ories and a realization that Quality, especially in Shoes, is really True Economy. "Limitations" must always exist in a business of the type of "Foster's"—where the high character of material and workmanship CANNOT BE SACRIFICED TO MEET A "PRICE."

An Invitation

As a guest of our city you are cordially invited to visit the New Peacock Store, considered one of the show places of Chicago, the achievement of ninety years of good will and confidence on the part of Chicago and those who visit here.

Peacock's—a store for all the people

ENERATION after generation, for I almost a century, C. D. Peacock has enjoyed the confidence of a style wise and value wise public. Great grandsons come to Peacock's not merely because of family tradition and sentiment, but because, like their forefathers, they appreciate the reliability and modernity of this well known establishment.

The House of Peacock, owned and operated by Peacocks for over 90 years, is symbolic of Chicago's growth and sound prosperity. This handsome new store at State and Monroe, the largest and finest Peacock's, stands as a monument to Chicago's 90 years of progress.

To be a store for all the People, to serve no one class alone, this has been our ideal and our friends are pleased to believe that the material progress of Peacock's is evidence of its achievement.

Magnificently modern as this new store is, we are determined that it shall never lose its standard of courteous, friendly service.

Every one who has been energetic enough to get behind the scenes in Russia knows what Russia is today. One feature of soviet rule alone is enough to tell the story—the fact that the Russian gov-ernment will not permit a free foreign press reprebe time to believe that conditions are such as Sherwood Eddy, Mr. Maurer, and other artists in pink pastel have depicted them.

As for the reaction of Mr. Maurer's trip to Russia en American labor, there won't be any. President Green of the American Federation of Labor sent a party off with the announcement that its members represented no one but themselves. And, as for its members, they simply do not belong. in the labor movement they are in the unhappy osition of the little bey in Lord Fauntleroy pants trying to play with the neighborhood bunch.

MOVIES OF THE FIGHT.

Residents of every state in the Union and a good many foreign countries will be at Seldiers' field this evening; radio announcers will broadcast the details of the fight, blow by blow, to every corner of the country, telegraph instruments will carry the stery of the fight into a thousand newspaper Mees; but the moving pictures of the fight, by tment of the federal government, may not be transported across state lines. They may be shown in Hegewisch, Ill., without interference from any one, but they may not be-shown a few miles farther, in Gary, Ind.

Many absurd statutes have been enacted by conross, and this is certainly not the least of them. As we recall it, the law was enacted when Jack Johnson, a Negro, was champion. He was not a popular champion in some sections of the country. and he was especially unpopular in the south. Southerners were anxious to prevent the pictures of Johnson defeating Jeffries, a white man, from being shown in regions of the south in which the Negro population is relatively large.

The end might have been accomplished by state legislation forbidding the showing of prize fight pictures, or by local consorship. That was too much work. Instead, congress was induced to nact a law forbidding interstate shipment of prize fight films under the clause in the constitution permitting congress to regulate interstate comnerce. The law was observed after a fashion and for a time, but in recent years it has virtually been nullified. The picture of every important fight, wherever held, is shown in Chicago, and only semi-occasionally is the man who shipped the film punished, and then only by a fine. The jail sentence is seldom, if ever, added; and, as the showing of the film is generally highly profitable, the fine is unimportant.

The result might easily have been foreseen. The d. A semoval from Mexico to Belgium, for law was passed to meet a temporary situation which could not possibly have lasted more than a few years; the law forbade the transportation of something which, to most persons, was harmless; the law required the federal government to act as In fact, our Latin American representation policeman for local governments, a task which the fication, and, as there has been no repeal.

These are the conclusions of a study in malaria control made by Col. James, a British army surgeon. They support the position which Le Prince has been advocating in this sountry for several years, and which Deeks and his associates have taken in Central America. Working along the lines laid down by

opinions are built are as follows:

After a man has been bitten by an infected mosquite about ten days must elapse before he commences having chills. It is then two or three days before parasites appear in the peripheral blood. After a measuite bites an infect-ed man it is 10 days before he becomes infective. A mosquite is not likely to become infected as the result of feeding once on blood frem a malarial person. As a rule, she must bite several times to become infected. In hot weather malarial mosquites must feed daily to keep equitoes must feed daily to keep

Mosquitoes that have been living on fruits usually have yeasts and molds inside of them. These yeasts and molds interfere with the development of the majarial parasite within the mosquito. A simple and highly effective procedure is to kill the masquitoes within the liv-ing room daily. This can be done with a fly swatter, for mosquitoes gorged with blood are easily found and easily killed. blood are easily found and easily killed.

Ten minutes of mosquito hunting done in every home every morning will go a long way toward doing the trick. Screening, draining and other procedures will contribute toward the result.

Physicians will be interested in knowing that Col. James finds that maiaris easily changes type. The same infection may cause a daily chill at one period, an alternate day chill at another and a more continued fever at a third.

STYLE NOTES

ACITY AND ASTORE

CHICAGO and Marshall Field & Company have grown up together. The city was only nineteen years old, Marshall Field twenty-two, when he came to the scene of his life work from a stony hill farm in New England.

Quail still whistled over most of the area where now stands the world's fourth city. State Street was still vividly remembered as a sluggish creek winding through sedge grass to the river.

The first railroad from the East preceded young Field by only four years. It arrived in 1852—the year when another New Englander, Potter Palmer, started the dry goods store, of which Marshall Field later became a proprietor.

Chicago and these young merchants had this in common: Vision and faith.

The Northwest was opening. A new

world was to be peopled. Chicago was its gateway. Chicago saw it. Mr. Field saw it. Mr. Field said: "Nothing is impossible." Chicago said: "Nothing is impossible." That spirit made Chicago. It made Marshall Field & Company also.

They have endured together. They have weathered panic and fire together. They have prospered together. They have even moved together, for Chicago's retail center roamed back and forth, until it found its permanent home in State Street.

Chicago is still young. Marshall Field & Company is still young. The sap of self-renewing life runs strongly in both. The days when Chicago was a fort and a cluster of log cabins are not so far past. The nights when men walked to dances in hip boots, the better to assist the progress of their ladies in high wheeled carts

through the mire of this "one-horse, mud town" are not beyond the memory of persons now living. The World's Fair, which marked Chicago's coming of age, seems but yesterday. Measured by years, Chicago has reached maturity. Measured by opportunity and zest for high adventure, the present generation—sons and daughters of pioneers—are still pioneers.

Marshall Field & Company is proud of its kinship with Chicago. It is proud of the patronage of several generations of Chicago people and of the new generation which "meets at Field's," just as Chicago has always done:

Marshall Field & Company owes much to this city. It asks no better future than that it may continue to be worthy of the Chicago that is and the greater Chicago that is to be.

STEAMSHIP companies use Berry's Lionoil Floor Enamel as a waterproof deck covering. Railways use it as a wear-resisting finish for passenger-coach floors and mail-car interiors. In large buildings and public institutions it is preferred for cement floors—because it produces a dry, smooth, dust-free and wear-resisting finish that is easily cleaned.

For floors, porches, lawn furniture and numerous other purposes it is the most satisfactory finish that can be used—and it costs no more

The New Shoe Section For Younger Men

HELI

Suffe

Young men like to shop in a place that is given over to them exclusively. That's why a new shoe section, in The Store for Men, has been set apart for younger men. Whether you are in high school, college or the first steps of business, you'll find, here, exactly the sort of shoe you want. They are young men's shoes in every respect-broad toes in a variety of styles and patterns in sizes as small as four and one-half. Young men will wait on you and Field Collegian Shoes will assure you lasting service, trim appearance and economy of price. They range from \$7 to \$9.

Thirty replies to Tribune Want Ad assures quick rental of two apartments!

OCTOBER 1st is no longer the fall renting deadline—not for apartment owners who use Tribune Want Ads! Chicago's population is constantly and rapidly increasing and new residents arrive every day.

The best way to reach these, and all other renting prospects, is a Want Ad in The Tribune. The thirty replies that Mrs. J. J. Godwin of 7044 Princeton Avenue received to her ad and the quick rental of her two apartments prove how successfully The Tribune Want Ad Section finds tenants.

If you have an apartment that remains unrented, advertise it in The Tribune Want Ad Section. The results you get will show you why The Tribune is the world's greatest renting medium! Phone—

Watch Quality of Grapes.

"A year ago at this time there were over 10,000 cars of grapes on wheel destined to eastern points, while this year there are less than 5,000 en route. Growers and shippers are carefully watching quality of grapes being loaded at present, with view of giving eastern consumers highest standard possible, leaving low grade grapes at home. This fact alone will reduce previous estimates by 25,000 to 30,000 cars, and will give eastern consumers in exceptionally fine product, for which they will be willing to pay a etter price than in former years."

In a later wire from Fresno, Cal., Ir. Conn reiterates: "Shipment will be more than 60,000 cars."

Fear Price Cutting. The reason for failure to ship \$5,000 cars is attributed to fear of the grape growers that such a supply would outstrip the demand and that the wine makers would run the price so low that the growers would get no return. As was recently pointed out in a series of articles in The Tribung, the federal of articles in THE TRIBUNE, the federal government: estimates the nation's grape crop this year at 2,500,000 tons, of which California is credited with 2,300,000 tons, or 92 per cent; from which it appears that California could ship 85,000 car loads of grapes this year, and probably would, if they could be sold at a profit.

About 63,000 cars were shipped last year. In 1925, the shipments totaled 76,000 cars, which is said to have run the price below the satisfactory point to the growers.

I was visiting in Rio de Janeiro—a city of splendor and enchantment. And not the least of its enchantment centers are its beautiful women.

Wherever I went I was struck by the ravishing skins of the women of wealth and leisure. My hostess was a charming Senorita I had met at a friend's home in Paris. I asked her the secret.

"We come of a long line of Spanish Grande Dames," she laughingly answered. "Their chief thought in life was the care of their skins. But seriously," she continued, "we have been taught to regard our complexions as priceless treasures and to safeguard them accordingly. We use cosmetics very sparingly, if at all. After a lithograph very popular in 1883

The shade of JOHN L. SULLIVAN will hover above the roan of the crowd tonight, and blink in the dazzle of light that floods the ring ... wonder what it thinks about

IN this day of huge gate receipts and million dollar purses, many an old timer's memory will go back to John L. Sullivan, idol of another day, when fights were long and purses small.

No man ever appealed to the popular imagination like the "Boston Strong Boy." He fought hard and often for what today would be a pittance. Still he earned a fair sized fortune in his time—and spent it—like a good fellow. Business and fighting were strange bedfellows in his day—and John L. was no exception. Long after his dethronement he remained the idol of the American ring. He died almost penniless, leaving only the heritage of an honorable name and a glorious record that will live as long as man knows the meaning of the word fight.

A regrettable ending to a great career. It might have been otherwise had John L. been blessed with more business acumen—or had been well advised on investment.

It is interesting to note that at the height of his fame and prosperity, a few thousand dollars wisely invested in Chicago real estate would have provided him with affluence in old age.

For example, the plot of ground at North Michigan Avenue and Walton Place, where now stands the Rockefeller Block in which the Krenn & Dato offices are located, could then have been bought for about ten thousand dollars. Today this ground is valued at one million dollars—a hundredfold increase created by the enormous growth of Chicago!

This, and many equally good real estate buys here and elsewhere, were within the means of John L. Sullivan. He did not realize his opportunity. The present generation of fighters is wiser. Many of them have invested a large part of their earnings in real estate. They will retire from the game independently wealthy.

TONICHT, two young men will match muscle and skill in a thirty minute struggle for a title—for fame—for fortune.

In the life of every Chicagoan who will witness the contest...
thrill to the narrative as it comes in by radio . . . devour every
word of the story in the press . . . there is also a struggle—a
fiercer, day in and day out struggle for a "title"—the "title" of
economic independence.

It is significant that many of those who have won this "title" have done so through profitable investment in Chicago real estate. The rapid increase in property values caused by the enormous growth of the city has started many men and women on the road to financial independence.

The shade of John L. Sullivan hovers above the roar of the crowd tonight—and blinks in the dazzle of light that floods the ring...

Tomorrow, after the tumult and shouting have died—start to consider the investment possibilities offered by Chicago real estate. All you need is a little money . . . the sound advice of a reliable real estate organization and faith in the destiny of your city.

FOREMOST in the field of Chicago Real Estate enterprise is Krenn & Dato, Inc. This organization has invested millions of dollars in the building and improving of some of the finest subdivision and construction developments in the country. It has served thousands of clients with painstaking care, helping them make profitable investments in Chicago real estate. Any information you desire about opportunities for good investment will be furnished without obligation.

BY WESTHROOK PEGLER.

There has been so much talk of burglary in its various forms in connection with the impending prize fight between Gene Tunney and Jack Dempsey that the customers may safely conclude that no stone has been left unturned in the search for something solid with which to load the gloves, in a manner of speaking. I do not mean to state, or even to imply, that either Mr. Tunney or Mr. Dempsey has been guility of tawdry practices or yearnings, but in the modern technique of fixing a prize fight the prize fight selection suited at all.

Nor would I go so far as to impute tawdriness to Messrs. Will Gibson or Lee Percentage Flynn, except in so far as the ethics of the prize fight profession condone many little sobtleties which might strike the layman as unprecedent to be hidden away until he leaves for Soldiers field.

The champion was up early this morning and covered about five miles on the road. He was accompanied by Sergt. Bill Smith, who has been his bodysuard since he arrived at Cedar Crest. Gene had breakfast at 9:30. His meal consisted of orange juice, prunes, cereal, boiled eggs and milk.

After breakfast Tunney gave every member of his camp a \$30 ticket to the fight. He also thanked all who had assisted him in his training. After a short rest, the champion and Sergt. Smith went to the library of Fred Lundin, a mile away, and read until 2 o'clock this afternoon. He then returned to camp and slept and rested all afternoon. He had dinner at 7 o'clock and retired at 10 o'clock.

[Chicago Tribune Press Service,]

Lake Villa, Ill., Sept. 21.—Gene Tunney will leave for Chicago tomorrow morning at 11 o'clock. He will be escorted into the city by two polices squad cars in charge of Mike Grady, deputy chief of detectives.

No one around the champion's camp seems to know Tunney's destination, although Gene said today in a joking manner that he would go to the Hotel Sherman and occupy the house on the roof. Dempsey, it is understood, will live in the bungalow on the roof of the Morrison. Tunney, however, is expected to be hidden away until believes for Soldiers' field.

Style Revolution

BECAUSE every revolution of this new Fall Turn Style in all our windows, in every City in U. S. A. today, presents more than a thousand new Styles and Colors, as well as the more conservative Shapes and Shades.

Perhaps the most noticeable of all the new designs we introduced this Fall is the "Piping Rock." It's a Double-Cut Edge at \$5.00, which is now shown prominently by others at \$10.00 and you can't tell the difference, in the window or on your head.

The "Briar Cliff" is another. It's an imported Wool Felt, finished by America. We have it at \$3.50 in all the new woodland shades from a delicate Maplewood Tan to a bright Silver Birch.

And here's a thought to put under your hat. Light colors are going to be popular this Fall but it's not necessary to pay a heavy price for a fight color. Dust and dirt will spoil the complexion of a light color regardless of price and the Weather Man doesn't care whether you pay \$3.50 or \$13.50.

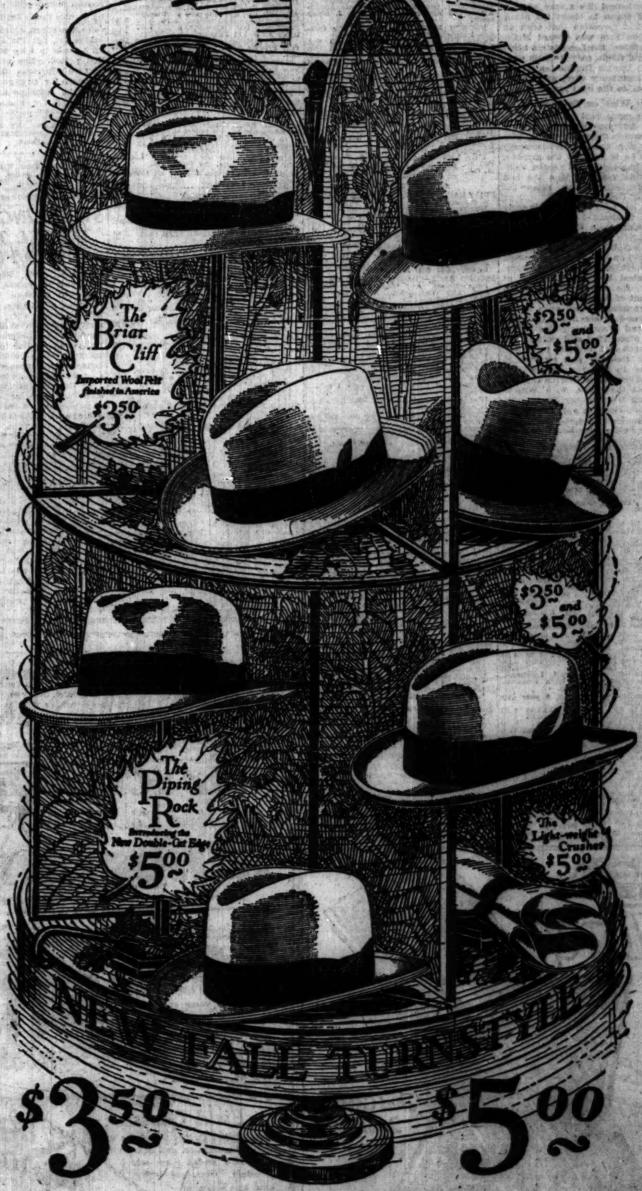

More than a million men have discovered that it's better to buy another new hat when you need it, than try to get your money's worth out of an expensive hat by wearing it after it looks soiled and seedy.

In our Imported Wool Felt, we reproduce for \$3.50 any light color shown by any hat manufacturer AT ANY PRICE.

We cannot reproduce our beautiful new Fall Colors in black ink, and we can't show our Turn-Style in motion in this newspaper.

But if you'll come into our stores we will be glad to show you all the Colors in all Styles, with Brims that snap down, Brims that lay flat and Brims that turn up. Welt edges, raw edger and a variety of silk-bound, satin-lined hats for three-fifty and five.

Urges McComas to Win by Brilliant Ride.

Comas, at odds of nearly 17 to 1, nished the fireworks at Hawthorne terday, where an almost record tweek crowd had assembled.

Comas raced in the blue and white silks of Mose Lowenstein of Chicago, and was far out of it during the early tages of the mile and seventy yards rip. Heading for the stretch, Pool rent to work on the son of Super-nan and soon had him up with the eaders in the field of seven.

Then came one of the greatest rid-ing exhibitions that Hawthorne pa-trons ever witnessed. Pool and Mc-Comas first went after Dr. Clark and ne disposed of these two front run-ners midway in the stretch. That ride made Pool the hero of the afternoon, but just to show the big crowd, in which there were many visitors here for the Tunney-Dempsey fight, that he is perhaps the greatest rider that has performed on the western turf this year, he won the last race on Renbarg, which races for Frederick M. Grabner.

Renbarg has been noted for his early speed and condemned for his weak heart running down the stretch. He had been made the favorite in the big field of eleven, but only a few of those who wagered on him believed he would be able to last in such a long journey.

Pool rushed him into the lead at the start. He was a length and a half in front of Annie Coughlin at the half and running in fine even stride. Illinois-Kentucky Bridge

- Paducah-Ohio River Bridge Company -

First (Closed) Mortgage 6.50 Per Cent Sinking Fund Gold Bonds

Dated September 1st, 1927

Due September 1st, 1947

A Semi-Annual Sinking Fund Is Calculated to Retire This Entire Issue by Maturity

General: Paducah-Ohio River Bridge Company has acquired the franchise granted by the Congress of the United States to construct, maintain and operate a highway toll bridge across the Ohio River, at Paducah, Kentucky, connecting with the principal highways of Illinois and Kentucky. These connecting highways constitute through routes including highways to Chicago, Detroit, Milwaukee, Duluth, Minneapolis and St. Louis in the north with highways to Memphis, New Orleans, Nashville, Chattanooga, Atlanta, Birmingham, Biloxi and Florida in the south. The bridge is planned to be located at the southern point of Route No. 1, which is the Illinois division of the Great Lakes to the Gulf highway and at which point it will connect with four main federal highways leading to Louisville, Ky., Nashville, Tenn., Memphis, Tenn., and St. Louis, Mo. The bridge will also serve as a connecting link between southern Illinois and western Kentucky, in which territory, within a radius of 75 miles, there is an estimated population of 757,000 people. The States of Kentucky and Illinois are conducting active road building programs in western Kentucky and southern Illinois which call for completion within the next two years of several hundred miles of improved highways.

Property: The bridge is planned to be of steel cantilever type with reinforced concrete piers and in length to be 8,340 feet, or about 1.6 miles. This includes the main bridge over the river, 4,005 feet, with approaches totaling 4,335 feet. Messrs. Harrington, Howard and Ash, Engineers, have prepared all the designs for the bridge which have been approved by the War Department.

Earnings: Based upon the report of Messrs. Sanderson & Porter, Engineers, the net earnings for the first five years after completion of the bridge available for bond interest and other charges are esti-

Based on the above, the average earnings for the first five years of operation will be over 2.47 times the average interest charges on the First Mortgage Sinking Fund Gold Bonds and over 2 times such interest charges

Security: These bonds will be secured, in the opinion of counsel, by a closed First Mortgage on all of the physical property of the Company now owned or hereafter acquired, including all bridge rights and franchises. There will also be issued \$500,000 Sinking Fund Gold Bonds and \$175,000 Preferred Stock, the proceeds of which will also be used in construction costs. Messrs. Sanderson & Porter, Engineers, have appraised the bridge upon completion as having a value of \$2,800,000. The mortgage will provide for insurance of the property against fire, lightning, tornado, earthquake, collapse, explosions, riot, flood, malicious damage and other insurable hazards. The completion of the bridge within the contract time and contract cost will be guaranteed to the Company by surety bonds.

Franchise: The Congress of the United States has granted a franchise, giving the right to construct, maintain and operate the bridge and approaches and to charge tolls for the use thereof, all rights under which have been acquired by the Company. The approval of the Secretary of War has also been received. The franchise gives to the States of Illinois and Kentucky, or the political subdivisions of either State, the right at the end of 20 years to acquire the property by purchase at a price equal to the cost of construction of the bridge and approaches, less a reasonable deduction for depreciation, plus certain costs of financing and all of the actual costs of acquiring the necessary interest in real property and actual expenditures for necessary im-

bonds are offered when, as and if issued and received by us and subject to the approval of counsel, Mesura. Simpose, Thacher & Bartlett, Temporary bonds of interior receipts of The New York Trust Company may be delivered in the first instance.

An Important Form of Diversification Sometimes Overlooked

An investor having suitable balance among the various types of bonds—the amounts invested in each, and the maturities selected—but whose investments originate too largely in one locality, cannot be said to have thorough diversification. In a country as large as this, conditions often vary greatly between sections; it is wise to have your investments originate in as many localities as pos-

And 101 thereafter on or before May 1, 1945.

Company agrees to pay interest without deduction for normal Federal Income Tax up to 2%; and also to refund present Pennsyl and Connecticut Four-Mill Taxes upon application within 90 days after payment.

Sinking Fund Sufficient to Retire 60% of all Series A Bonds Before Maturity The \$4,900,000 Bonds previously outstanding are listed on the New York Stock Exchange and application will be made to list the Bonds now offered.

The following is taken from information submitted to us by the Company:

Company is largest producer in United States of commercial coke and one of the largest industrial producers of gas for outside sale, selling its entire surplus gas to Peoples Gas Light & Coke Company, amounting at this time to 28,000,000 cubic feet of gas per day. It is foremost merchant pig iron operator in Chicago District and also important producer of domestic coke and by-products, including coal tar, ammonia, and light oil. Territorial advantages afford under normal conditions ready market for capacity output. Plants at South Chicago, Ill., efficient and modern, adjoin Calumet River and Calumet Lake, undergoing development as principal harbor on Lake Michigan.

These Bonds, constituting Company's sole funded debt, are secured by first mortgage on all real estate, plants, and equipment now owned or hereafter acquired, except property acquired subject to existing or purchase money obligations, against which no First Mortgage Bonds may be issued until such prior liens are retired. Mortgaged properties carried at \$12,400,430 have an appraised value substantially in excess of that amount.

Total net tangible assets upon completion of this financing, \$18,564,114, or approximately 2.7 times the \$6,900,000 Series A Bonds to be outstanding upon completion of this financing, including fixed properties at conservative book values. Company is in strong financial condition, current assets being 23/4 times current liabilities.

Net profit, calendar year 1926, after depreciation and before interest and Federal Taxes, \$2,444,894 or more than 6.4 times maximum interest requirement of \$379,500 on \$6,900,000 Series A Bonds to be outstanding. For 11 years to December 31, 1926 such net profit averaged approximately 3 times, and for the last 2 years similarly stated has averaged over 5½ times this maximum requirement. Estimated net profit, 9 months to September 30, 1927, in excess of \$1,300,000.

Proceeds of these Bonds will be used to retire present outstanding issue of \$1,522,200 Preferred Stock, 9% Cumulative, and for construction. Annual carrying charges on Company's capitalization are thus reduced though a substantial amount at the same time is made available for new construction. Further Series A Bonds issuable under conservative restrictions of Mortgage.

WE RECOMMEND THESE BONDS FOR INVESTMENT

Price 102 and interest to yield about 5.32% It is expected that interim receipts will be ready for delicery on or about October 3, 1927; exchangeable for definitive Bonds bearing interest from May 1, 1927.

Erie to Speed Up Freight Traffic, President Says

A speeding up by 20 per cent of freight crvice upon the Erie railroad between hicago and New York was predicted esterday by President John J. Bernet f the road as a result of a \$25,000,000 inprovement program under way. Mr. lernet, with sixteen other high officials f the Erie system were in Chicago on in inspection trip. Some of the improvements under way, Mr. Bernet said, include rock ballasting of the road from Chicago to New York, installation of block signal appliances. Several million follars worth of new equipment, including locomotives, passenger, and freight bars, have also been purchased.

Southern Gas Utilities, Inc.

First Mortgage 64% Sinking Fund Gold Bonds, Series A

THE FIRST NATIONAL BANK OF KANSAS CITY, TRUSTER

Mr. L. J. Snyder, President of the Company, summarines his letter to us as follows:

BUSINESS: Southern Gas Utilities, Inc., organized under the laws of Delaware, will own, upon completion of this financing and certain construction for which funds will be deposited, the present gas production and future gas rights on approximately 55,000 acres of gas lands in Webb, Duval, Zapata, Jim Hogg, Bexar and Medina counties, Texas, together with approximately 80 miles of main trunk lines, field gathering lines and appurtenances thereto, forming a complete and unified system for the production and transmission of natural gas and will then also own and operate the gas distribution systems in New Braunfels, Seguin, Hondo and D'Hanis and the transmission lines supplying these towns.

The gas production which the Company is acquiring, now serves Southern Gas Company and constitutes the principal source of supply for San Antonio and for Rio Grande Valley Gas Company which will furnish gas to thirteen cities and towns, and large industrial consumers in the lower Rio Grande Valley. The total present population to be served by the Company, directly or indirectly, is estimated in excess of 350,000.

GAS SUPPLY: In the opinion of independent geologists the Company will own or control producing gas wells or gas rights in such wells having an aggregate open flow capacity in excess of two billion cubic feet daily, the reserves constituting an adequate supply at the expected rate of withdrawals, well beyond the life of these Bonds.

EARNINGS: The following estimate of earnings has been made by independent engineers after a detailed survey of domestic and industrial demand available in the communities to be served:

SECURITY: These Bonds will be secured, in the opinion of counsel, by a first mortgage on all of the fixed physical property of the Company, including (on the completion of certain construction, funds for which will be deposited) about 80 miles of main trunk lines, distribution systems, gathering lines, etc., and by the pledge or mortgage of gas production, wells, sales contracts, leases and agreements representing an actual cost substantially in excess of this Bond Issue. These Bonds will be followed by \$305,000 Purchase without par value.

PURPOSE OF ISSUE: The proceeds from these bonds are to be used in part for the acquisition of properties, extension of pipe lines, for working capital and for other corporate purposes.

Holy Grail to Irish

Da A. C. L. Brown, professor of English at Northwestern university, just returned from a six months leave of absence granted him to make a study in the libraries of Dublin, Edinburgh, London and Paris, yesterday threw some light on one of the greatest problems of literature. Numerous attempts have been made by scholars to construct a theory of the origin of the Holy Grail story.

CHANGE in the schedule of the Theater Guild in the Stude baker brings Molnar's "The Guardsman" forward for the Second Man," which has been bulletined for that period put of until the 17th. . . The latter comedy is still on view in the Guild's theater in New-York, with Earle Larrimore and Miss Emily Stevens in the respective roles originated by Mr. Lunt and Miss Fontanne.

even optimism and tolerance.

"One cannot pay a man a higher compliment than to say that he has led a clean life." Dr. Peters observes. This, of course, means not mere physical cleanliness, but a clean mind and a clean soul. However, in building character it is important to start with tangible factors. One progresses from physical cleanliness to mental and moral cleanliness, to success in every department of life.

Of particular interest to this department is Dr. Poters' observation of the effect of cleanliness on self-respect, pride, behavior, manners, because of an incident related to us by a woman who was anxious to make an impression on a certain business person:

"The appointment I had been seaking for weeks came one afternoon when I was badly prepared for it. My dress was spotted. The lace on the alseves was solled. My nalls were in awful shape. I fooked pretty disorderly, and I felt it, and, what was worse for me, acted it. I did not make the impression I wanted to make at all."

make at all."

I doubt if there is anything that gives to a woman that sense of well-being which sets her up on her toes in her manner, in her confidence in herself, as the knowledge that she is clean from the skin out; that every detail of her dress and of her personal self is spotless. One of the joys of a manicure is to experience that feeling of pride with which one handles a purse, beads, or any article that involves a display of smart looking nails. Isn't it true?

"My Choice!"

"The exquisitely textured Black and White Face Powder is my choice above all others," says fascinating Miss Viola Manning, of Brooklyn, N. Y., "because of the way it has rid my skin of offiness, and because its fluffy fineness keeps it from sticking in the pores and coarsening them. Dainty though it is, this lovely powder stays on evenly for hours without renewing, and gives my skin the smoothest appearance it has ever had!"

Black and White Face Powder

Black and White Face Powder will be your choice, too, once you feel its caressing touch and see its beneficial, beautifying effect. You can get this delicately fragranced face powder, attractively packaged for 25c, in flesh, pink, brunette and white tints. Like the other Black and White Beauty Creations it is of a quality acceptable to those who seek the best, at prices within the reach of all. Sold everywhere.

Best results come from using Black and White Skin Soap with the other Black and White Beauty Creations.

Woe Unto Him Who Tells His Wife She's Losing Her Looks

is getting old and that she's not as to be able to tell us. The short cooking pretty as she used to be.

Fannie Merritt Farmer recommends

If you want to drive a woman into liaison, tell her often enough that a liaison, tell her often enough that she isn't attractive. Then let some man cross her path who hints that she has charm and out of the sheer gratitude of her soul she'll follow where he leads. I wouldn't hazard a guess at the number of wives who've left home because they either heard criticism about their looks or never a product of the sheet are an uniper of boys around our neighborhood, but none is appealing to us. We would like to criticism about their looks or never heard a word about them at all, but it would be no mean number. We femmes are all alike in appreciating "friends" who can see beauty in us, whether we have it or not. Which means the second about the age of around our neighborhood, but none is appealing to us. We would like to become acquainted with some fellows, but we don't know how.

Losing Her Looks

BY DORIS BLAKE.

"What do you think of a husband who kicks every time you buy a box of rouge or powder; tells you vourse only using them to attract the attention of other men. He isn't stingy about other things, so I can't understand him on this. Also, he tells mest the most uncomplimentary things, such as: 'You're getting old': You're not as pretty as you used to be, 'etc.

"Wrz."

I'd think him about as welcome a little house companion as a flock of fleas. About their size, too.

Why shouldn't a woman buy a box of rouge when she needs them? They have become a semphatic a part of dressing table equipment as soap on a wash-bowl.

But having a husband like that, why flaunt the purchase in his face? Or is he the snoopy kind who pries into corners and under covers? In which event you'll have to take a stand on a lady's rights to out-art nature.

I think the gentleman is possessed by the green eyed demon and that's the sun total of his ill nature. But if there's one way to drive a woman to use artifice to a titract other men, it is to tell her that's what she is using it for. To provide further stinutes to the urge to paint tell a woman she is getting oid and that she's not as pretty as she used to be.
